

Technical QAD Training

EDI/eCommerce Based Solutions

End Game: The goal of the training is to provide a broad overview of the functionality in the QAD eCommerce module so attendees can gain a better understanding of the benefits this module provides. The training will focus on how eCommerce can be used as an EDI tool across varying environments and industries. It is important to note that this training is designed to be a high-level insight into the module, providing knowledge of the inner workings and how it can benefit ones business. It is not intended to be a deep-dive or to develop subject matter expertise. The main topics covered are as follows:

- ❑ eCommerce Module
 - EDI Transaction Processing
 - Error Handling & Debugging & Reporting
- ❑ EMT via eCommerce
 - External Vendor Relationship
 - Internal Site to Site Relationship
- ❑ Inter-Company EDI via eCommerce
 - PO vs Schedules
 - Shipping & Receiving
- ❑ Bank Drivers via eCommerce (EE only)
 - Bank Transaction Processing
