

KEY BENEFITS

ACCESSIBLE FROM ANYWHERE

Access 100% of the distribution features from anywhere using any popular web-browser.

IMPROVE INVENTORY MANAGEMENT

Gain real-time visibility into inventory costs and locations across multiple warehouses.

FASTER ORDER FULFILLMENT – MORE SATISFIED CUSTOMERS

Automated sales order processing and shipping order generation ensures rapid delivery. Security controls allow up-to-date status information for all employees and partners.

FASTER DATA ENTRY, FEWER ERRORS

Predictive entry and flexible screen layouts reduce time spent entering data. Set default accounts, subaccounts, payment terms, and discounts by vendor to reduce errors.

ACCELERATE DECISION-MAKING

Access past information and receive insights into future needs with drill down reports and dashboards. Optimize purchasing by maintaining a vendor supply list.

ORDER AND SELL LOCALLY AND INTERNATIONALLY

Maintain supplier and customer balances in two currencies. Currency translations are performed automatically.

DISTRIBUTION MANAGEMENT

Determine real-time profitability by warehouse, product line, location, or business unit, while reducing costs across your entire supply and distribution chain.

Acumatica's Distribution Management Suite allows you to manage sales orders, track inventory, fill orders, improve purchasing, and provide customer support from anywhere. The Distribution Management Suite is integrated with all other Acumatica suites and can be deployed on-premises or hosted at a datacenter so you can control where sensitive data is stored.

KEY FEATURES

Inventory management	Improve customer satisfaction and maximize profits with real-time access to available inventory, inventory in transit, reorder quantities, and inventory costs so you can efficiently manage your distribution process.
Sales order management	Reduce order times and minimize costs by optimizing the way you quote, accept, enter, and fill orders. Set rules to manage complexities such as multiple warehouses, returns, credit limits, drop shipments, and more.
Purchase order management	Minimize purchasing costs and ensure a steady supply of materials by optimizing and automating your purchasing process.

The screenshot displays the Acumatica software interface with three overlapping windows. The top window, 'MAIN - Sales Orders', shows order details for 'SO' with a customer 'SO00000402 - SO customer #402' and an ordered quantity of 39.25. The middle window, 'MAIN - Inventory Allocation Details', shows a table of inventory allocations with columns for Inventory ID, Warehouse, Location, Subitem, and various status checkboxes. The bottom window, 'MAIN - Purchase Orders', shows a purchase order for 'ATDSECUR - ATD Security Services' with a total order of 5,345.00. It includes a table of line items with columns for Branch, Inventory ID, Subitem, Line Type, Warehouse, UOM, Order Qty., Received Qty., Unit Cost, Extended, Received A..., Alternate ID, and Line Desc.

Distribution includes sales orders, purchase orders, inventory, and requisitions.

ADDITIONAL FEATURES AND BENEFITS OF ACUMATICA DISTRIBUTION MANAGEMENT

FEATURE	DESCRIPTION
Inventory replenishment suggestions	Improve your cash flow and avoid over-/under-stocking with recommendations based on historical sales data analysis.
USPS integration	Get up-to-date freight costs for each shipment your company handles, print the actual carrier labels, and track shipments using actual tracking numbers provided by the carrier.
Carrier return label support	Print carrier return labels to include in order shipments for easy customer returns.
Automated Shipments	Fulfill large shipment volumes using pre-defined packing rules for specific products. Acumatica automatically determines packaging, generates labels, and confirms shipments for multiple orders with just a few clicks.
Multiple valuation methods	Value your inventory using standard cost, moving average, FIFO, and item specific methods. Select a different valuation method for each inventory item. Make direct adjustments to cost and physical inventory count using report and inquiry screens.
Inventory bin/location control	Create a physical and logical warehouse structure using inventory bins and location controls. For each warehouse location specify the types of items and transactions that are allowed, the picking priority, and the cost of the items.
Inventory lot and serial numbering	Track inventory by lot or serial number. Lot and serial numbers can be assigned or entered manually when you receive, issue, or assemble inventory items. Serial numbers can be linked with item specific valuation methods.
Inventory transfers	Track goods in transit while transferring inventory between locations. Information is kept in a Goods in Transit GL account.
Purchase order automation	Acumatica generates purchase orders based on inventory stock level and inventory replenishment algorithms. Orders are placed with the vendor that best meets price and delivery time requirements.
Partial and consolidated receipts and vouchers	Track when purchase orders are fully or partially received. Consolidate orders from multiple purchase orders into a single receipt. Enter multiple bills for a single receipt.
Sales order discounts and promotions	Manage complex pricing and discount policies including volume discounts and multiple discounts per item. Maintain policies for price overrides.
Workflow and approvals	Create workflow rules for sales orders and purchase orders. Base rules on the type of order, vendor information, discount amount, order amount, or transaction specific information.
CRM integration	Convert CRM opportunities to sales orders without re-entering pricing and discount information. Customer service can locate orders to verify shipping and delivery status.
Customer notification	Email customers when sales orders change status. Example: Provide tracking numbers when a sales order goes from open to shipped.

IMPLEMENT YOUR FINANCIALS ON CLOUD TECHNOLOGY TO ACHIEVE COST SAVINGS AND FUTURE FLEXIBILITY

Adaptable ERP Software

BRING YOUR OWN DEVICE

Acumatica allows you to work from anywhere using your choice of device. Now with an interface that is tablet-friendly and optimized for mobile devices, you can work on a PC, Mac, iPad, or any other device with a browser.

SCALE AND GROW

Acumatica is Cloud-based so you can add capacity quickly. Since there are no user-based fees, you can add users in seconds.

DEPLOY ACCORDING TO YOUR NEEDS

Get Acumatica as a subscription (SaaS) or purchase the license. Deploy on-premises, on a hosted server, or on a Cloud platform.

YOU OWN YOUR DATA

So you can access it any time.

ADAPT AND INNOVATE

You get access to code and web development tools so you can adapt Acumatica to your existing processes.

On-the-Ground Support

Acumatica is sold through a global network of value added resellers (VARs) who provide business planning, implementation, customization, local support, and other services.
